

Transformation towards Sustainable and Resilient Societies

Noer Adi Wardoyo

Pusat Standardisasi Lingkungan dan
Kehutanan, KLHK

Kerangka

- Pemahaman terhadap situasi yang terjadi terhadap sumberdaya alam, dampak pada lingkungan, kegiatan manusia dan kualitas hidup
- Deklarasi Rio 1992: “changing unsustainable patterns of consumption and production” merupakan prasyarat untuk menuju pembangunan berkelanjutan
- Agenda mendasar saat ini: hadapi dampak (“resiliency”) dan benahi sumber permasalahan (“sustainability”)
- Agenda perubahan: teknologi? gaya hidup? ...?
- Perubahan sistemik: operasional kegiatan pemerintah, bisnis dan masyarakat

SDG 12 di Indonesia: Perubahan Sistemik

PEMERINTAH

- Eco – Office
- Pengadaan barang dan jasa ramah lingkungan
- Daftar barang dan jasa ramah lingkungan

BISNIS

- Efisiensi sumberdaya dan produksi bersih (RECP)
- Standar Sistem Manajemen Lingkungan
- Standar Ekolabel untuk produk ramah lingkungan
- Verifikasi Teknologi Ramah Lingkungan
- Pendanaan dan investasi ramah lingkungan

MASYARAKAT

- Ketersediaan Informasi dan sarana di area publik
- Standar Pelayanan Publik (SPM) di fasilitas publik prioritas
- Penggunaan secondary material, menuju Circular Economy

HLPF Sustainable Dev't Juli 2018

- Tema: Transformation towards sustainable and resilient societies
- Review SDGs:
 - Goal 6. Ensure availability and sustainable management of water and sanitation for all
 - Goal 7. Ensure access to affordable, reliable, sustainable and modern energy for all
 - Goal 11. Make cities and human settlements inclusive, safe, resilient and sustainable
 - Goal 12. Ensure sustainable consumption and production patterns
 - Goal 15. Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss
 - Goal 17. Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development, that will be considered each year:

INVITATION

Sustainable Consumption and Production (SCP) in Asia and the Pacific for accelerated achievement of the SDGs

A Side -Event for the 2018 ECOSOC
High-Level Political Forum on Sustainable Development

18 July
2018

06:30 pm -
08:00 pm

at the Conference Room 8, UNHQ

Keynote Remarks by :

H.E. Prof. Dr. Bambang P.S. Brodjonegoro
Minister for National Development Planning, Indonesia

With the participation of:

H.E Yasuo Takahashi - Vice Minister for Global Environmental Affairs, Ministry of Environment, Japan
Mr. Kaveh Zahedi - Deputy Executive Secretary for Sustainable Development, UNESCO

Issues to be discussed:

- Strategic relevance of SCP policies to the Asia-Pacific Region
- Using SCP as a driver for integrated planning and policy resources
- Interlinkages between SDG 12 and other SDGs
- Upscaling and replicating good practices

Co-hosted by the Governments of the Republic of Indonesia, Japan, and the Kingdom of Thailand, with the support of United Nations Economic and Social Commission for Asia and the Pacific (UNESCAP), Asia Pacific Roundtable for Sustainable Consumption and Production (APRSCP), Institute for Global Environmental Strategies (IGES), and Policy Design and Evaluation to Ensure Sustainable Consumption and Production Patterns in Asian Region (PECoP-Asia)

For Further Information and RSVP, Please Email: rsvpindonesia@indonesiamission-ny.org

Pointers, Indonesia keynote speech

- Learning from addressing climate change, plastics, water and other emerging environmental challenges locally and globally; It's all coming back to us now, facing more severe impacts in the future, if no fundamental change
- SDG12 as fundamental change agenda for achieving SDGs, for all, collaborative, innovative, operational on the ground
- Indonesia is getting a grip on advancing development while combating environmental challenges (show some success!) and ready to accelerate driving fundamental change with SDG12 SCP
- Asia Pacific, a vibrant and dynamic region, a call for change and strengthening our collaboration. Awakening the giants: the Society, with social and technological innovations.
- Proposal way forward: establishment and adoption of Asia Pacific Citizenship Pledge for Resilient-and-Sustainable Society by major stakeholders in Asia Pacific Region, collective workplan for action, 2018 – 2030. Indonesia lead with Asia Pacific Roundtable on SCP and ESCAP/UN Environment

Draft Asia Pacific Citizenship Pledge for Resilient-and-Sustainable Society

Part 1. Generic

We, the stakeholders of AP

- share a common vision of shared prosperity and well being in harmony with the nature in Asia Pacific region
- acknowledge that our daily operation and activities in pursuing our aspiration of prosperity and better life are consuming precious natural resources and contributing to environmental challenges locally, regionally and globally (incl. Climate change, plastic waste problems, water problems, etc)
- pledge to take actions in being more responsible of our consumption of natural resources and avoiding/reducing the burden to the environment in our policy/strategy/activities/operations/products/services

Draft Asia Pacific Citizenship Pledge for Resilient- and-Sustainable Society

- Part 2. Specific

We, ...(name of entity)... will take actions,
.....(workplan).....

.....

.....

In collaboration with
.....(partners)...

.....

These actions are contributing to SDG 12, SDG ...,
SDG ...

Draft Asia Pacific Citizenship Pledge for Resilient- and-Sustainable Society

Part 3. Sharing and collaboration

- We are willing to share with our peer stakeholders in the region:

....(best practices, knowhow, guideline, tools, etc)...

- We are inviting/seeking support for

.....

.....

TERIMA KASIH
